

2nd IBTrACS Workshop Agenda

11-13 April 2011, Asia Room - East West Center, Honolulu, HI

Purpose: To continue the momentum of international collaboration by bringing together representatives from IBTrACS data providers, IBTrACS users and other TC researchers. In addition, the workshop aims to address unresolved issues regarding construction, archive and use of best track data.

Workshop Structure: Discussion of all topics will be open to the group. Each topic will be introduced by the IBTrACS team; an invited response will then help spark discussion followed by an open interaction incorporating the entire group.

Monday [11-April]
